

Get the
right care
when you
need it with

eConsult lets patients request medical
or routine help from their own
surgery online.

Go to your surgery website to start.

Your surgery will get back with the right
care for you.

- More convenient than calling the surgery.
- Give your doctors all the info they need to get you the right care.
- Free up time for your doctors.

How does eConsult work?

You should use eConsult for anything you would normally contact your surgery for. For example when you feel unwell or if you need a GP letter.

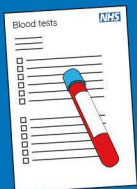

When can you use eConsult?

When you feel unwell or want medical advice from your GP surgery.

When you need reassurance from your doctors of what is best to do - for you or your children.

When you have a routine request such as requesting test results, a sick note or asking questions about medications.

Why should you use eConsult?

Get the care you need and a reply from your doctor on your own time, using eConsult from wherever you are.

The structured questions ask everything your doctors need to safely get you to the right care.

Patient safety is key. Our red-flagging alerts doctors to your conditions and directs you to more critical care if needed.
